Jennifer Languell
The Florida Green Building Coalition is the leading certifier of green projects in Florida. To date it has 13,700 residential, over 24 million s.f. of commercial and high-rise, 53 land developments, and 86 local governments participating in its certification programs.

FGBC certification programs are the only standards developed with climate specific criteria to address issues caused by Florida’s hot-humid environment and natural disasters.

The Florida Green Building Coalition (FGBC) is a nonprofit 501(C)3 Florida corporation founded in 2000 dedicated to improving the built environment. Its mission is "to lead and promote sustainability with environmental, economic, and social benefits through regional education and certification programs."

For more information about the FGBC “Florida Green” certification programs visit www.floridagreenbuilding.org.
