

USGBC North Florida Chapter December Meeting Notice

Thursday, December 21, 2006
11:30 AM - 1:00 PM

We are very fortunate this month to have Jim Dickenson & Norm Anderson, join our December meeting to discuss how sustainability forms a key aspect of JEA's strategy. Jim Dickenson, Managing Director/ CEO of JEA, will outline JEA's environmental initiatives. JEA demonstrates environmental leadership by promoting conservation and pollution prevention programs and by undertaking specific initiatives that exceed requirements of targeted environmental laws & regulations.

As a Registered Professional Engineer in the State of Florida, Jim has been employed at JEA since Oct. 1973 and a member of JEA's executive management team since 1977; he was appointed Chief Operating Officer in May 2003 and Managing Director/CEO in August 2004. Throughout his career with JEA, Jim has been involved with planning, designing, constructing, maintaining and operating JEA's entire electrical grid system.

Jim Dickenson

Norm Anderson

Jim Dickenson will be introducing, Norm Anderson, Director Facilities, DES & Security. Norm provides proven leadership and experience in construction and engineering management. His responsibilities at JEA are to ensure the efficient operation / maintenance and management of all JEA building systems and facilities. Norm will present JEA's plan to renovate with the goal of achieving LEED-EB, gold certification for their Conservation Center and silver certification for JEA's Headquarters' Complex.

With these goals implemented JEA continues to set a standard and demonstrate their commitment to sustainability in our community.
