

Join us on the 2nd Tuesdays of the month at 12 PM EDT for our “Lunch and Learn” free webinar series showcasing the “Building Blocks of Building Green”.

We’ll “build” from the ground up to help you understand how easy it is to build green and live healthy instead of just building new. Join experts about each phase of the process and join walk-throughs of houses in various stages of green construction. We will close each webinar with a Q&A so you can get questions answered.

The webinars are sponsored by Florida Green Building Coalition and created by volunteers of the Realty, Appraiser, Builder Outreach committee.

**May 11, 2021 - The Benefits of a Green Home**

Moderator - Jeannette Moore, Realty, Appraiser Builder Outreach, Chair  
Guest Speaker - Mary Vasilevsky, Sustainable Development Coordinator, Florida Green Construction, Inc.

This month Mary will walk through one of their FGBC Platinum certified homes and explain how green construction can benefit the occupants.
